THE BOOK:

- features 23 inspiring stories of selected students, and young and established forestry professionals from 12 African countries, who have defied all odds with purpose, passion, as well as determination, and made giant strides in building a successful career in the forest sector
- provides information about universities in Africa offering forest-related degree programmes, and local and international organizations providing networking opportunities to forestry students and early career professionals
- gives valuable tips on securing scholarships to pursue forestry programmes
- provides insights into exciting forestry career opportunities beyond the forests
