Application for Northern Africa Regional Representative Position

Dear Members of the IFSA Board,

I hope this letter finds you well. Allow me to introduce myself: I am Ademola Micheal Oyewole, a 21-year-old student from Nigeria currently studying Forest and Wood Technology at the Federal University of Technology, Akure. I am

currently serving as both the President of the FUTA Local Committee (LC) and the Head of Design Sub-Commission for the Northern Africa Region within IFSA.

My passion for forests has been a driving force throughout my life. Growing up in Nigeria, I've had the privilege of witnessing the beauty and significance of our natural environment firsthand. This connection has inspired me to pursue a degree in Forest and Wood Technology, where I am eager to learn more about sustainable forest management practices.

As a member of the IFSA community, I have been actively involved at both the local and regional levels. My dual roles as LC President and Head of Design for the Northern Africa Region have provided me with invaluable leadership experience and have deepened my commitment to advancing the goals of IFSA.

While I have yet to attend international IFSA meetings, I have actively participated in regional events within Northern Africa. These experiences have given me valuable insights into IFSA's work and have fueled my desire to contribute further.

I am writing to express my strong interest in serving as the Regional Representative for Northern Africa within IFSA. I am committed to fostering collaboration and ensuring that the voices of students in our region are heard within the global forestry community.

In this role, I understand the importance of connecting IFSA with local committees within Northern Africa. This involves organizing meetings, facilitating communication, and advocating for our region's needs.

The role of Regional Representative encompasses various responsibilities, including establishing networks, organizing events, and supporting collaboration. Effective communication and active participation are crucial to representing Northern Africa within IFSA.

My goal for the IFSA term is to strengthen our presence and impact within Northern Africa. Through increased engagement and collaboration, I aim to foster a stronger sense of community and empowerment among local committees in our region.

With a background in forestry and a passion for leadership, I believe I possess the necessary skills and qualities to excel in this role. My fluency in English, coupled with my commitment to promoting inclusivity and diversity, further supports my candidacy for the position of Regional Representative.

In closing, I am excited about the opportunity to serve as the voice of Northern Africa within IFSA and to contribute to the continued success and growth of the organization. Thank you for considering my application.

Warm regards,

Ademola Micheal Oyewole
